WAR CUTS \$2,300 ON BRASHER DOUBLOON

**Famous Coin Brings \$3,900
at Auction.**

Doubloons! Images of black bearded pirates with huge cutlasses arise at the name, Robert Louis Stevenson's beloved books come back to mind, and buried treasure haunts the mind.

Doubloons in New York to-day are worth more than they were when Captain Kidd cut throats for them more than 100 years ago, but not as much as just prior to the present war. This was proved yesterday afternoon at the Anderson Galleries on Park avenue, when one of these coins was auctioned for \$3,900. It was the famous Brasher doubloon of 1787 that many a coin collector has sighed for, and was part of the collection of the late Allison W. Jackman of Poughkeepsie, which is being sold at the galleries.

There are 1,141 lots in this collection and it includes magnificent specimens of American Colonial, State and United States coins and medals in gold, silver and copper, besides paper money and rare books on numismatics. The bidding yesterday, the first day of the sale, was not as brisk as it probably would have been had there been no war. For instance, the last time the Brasher doubloon was sold it brought \$6,000, \$2,300 more than was obtained at yesterday's sale. Apparently the war has reduced the value of Captain Kidd's delight.

Several sales of more than \$200 for a coin were made, but for the most part the lots yesterday went for anything between 50 cents and \$100. The sale will continue to-day, when the remainder of the collection will be disposed of.

Allison W. Jackman spent more than twenty years collecting the coins, some of them date back to 1616.

TERMS OF SALE

This sale is made for cash on delivery of the goods, which may be obtained at the termination of each day's sale, or at the end of the sale on the last day of the sale.

The highest bidder to be the buyer.

Should a dispute arise and the disputant has a voucher and is willing to advance on the price at which the lot was stricken off, then the said lot to be put up again and sold to the highest bidder. This does not apply where a bidder has not made any offer prior to said item being knocked down—then the auctioneer will use his judgment as to the justice of the claim and good faith of the contesting bidder and his decision shall be final.

The auctioneer reserves the right to refuse the bid of an individual if he declines to make a cash deposit ~~or pay sum bid on his request to do so.~~

No lot is separated. All are sold subject to the catalogue description and by the catalogue numbers. Should any lot become misplaced, the buyer does not acquire any right in it if it is stricken off without the mistake being discovered, and such a lot must be returned to the auctioneer. If any lot cannot be delivered from any cause whatsoever (though the cataloguer will make every effort to deliver), the auctioneers and cataloguer are only responsible for its value as sold and determined by this sale.

The auctioneers and cataloguer reserve the right to bid on their own account and for their clients who have favored them with commissions.

Every item is guaranteed genuine, and this holds good indefinitely.

Every lot sold so much ~~each~~ piece, except the proof sets.

No coins shown during the progress of the sale unless to oblige a special request. Any one wishing to see a lot will be given every opportunity to do so if possible.

Collectors are requested to carefully examine the coins during the exhibition at the auction rooms on day of sale from 9 to 12.30 o'clock, marking their catalogue, thus being prepared, as the sale proceeds at the rate of about 200 lots to the hour.

I will carefully and faithfully execute any bids entrusted to my care; charging a fee of 5% on the amount purchased—no charge being made for services rendered unless the lot was purchased.

The cataloguer and auctioneers will not be responsible for any errors made by bidders; so please carefully compare your bid sheet with the catalogue and make certain you have the numbers correspond on the lots being bid for. Nearly every sale develops some mistake—quite often the bid sheets arrive *unsigned*, with no way to determine the identity of the bidder!

PREFACE

Mr. D. K. Jackman, brother of the late Allison W. Jackman, and Administrator of his Estate, has given me instructions to sell at public auction without reserve, the superb collection of American Coins and Medals which his brother left at his decease last October.

Mr. Allison W. Jackman was a highly cultured gentleman who devoted his life to study, having never engaged in business and being a most devoted son with an equally appreciative mother, his collecting was a pleasure to them both. Born in 1849, he early began collecting coins, which is testified to by notes in his Numismatic diary where he mentions having bought this or that in the early '60's and his interest never ceased. Here therefore, truly is a life work and how well he has mastered it is shown by the coins which I describe in the brief space of an auction catalogue.

There are so many gems in this beautiful collection that it is very difficult to make a selection without seeming to prejudice those not so designated and I am therefore loathe to attempt it and decided to leave it to the collector to carefully peruse the following pages, feeling that he will not be disappointed no matter what series he may choose. The coins are magnificent, many of them of the greatest beauty and rarity. Standing out in a very conspicuous manner is the

NEW YORK BRASHER DOUBLOON OF 1787.

I have exercised my usual care in the description of the coins and the coins will meet those descriptions no matter how seemingly extravagant they may sometime appear to the person who is not favored by the presence of the specimen before him. If he had, he too would experience the delight felt by the cataloguer. When a "Microscopic nick" is mentioned, it is just that. When a coin has any damage I have mentioned it and I am glad to say that collectors have always been greatly pleased with my descriptions.

As the mails are sadly delayed, I earnestly request collectors to send in their bids as quickly after the receipt of the catalogue as possible, addressing me to arrive up to June 24th at No. 333 & 335 S. 16th Street, Philadelphia, and after that day at the Anderson Galleries where I shall be attending my sale of the Bement Collection June 26th and 27th.

In making bids, please compare your order sheet with your catalogue and see they agree, then *sign your name*.

Thanking collectors for the many expressions of good will and their appreciation of my catalogues and trusting my efforts in the present instance may warrant a continuance of the same, I remain,

Sincerely yours,

HENRY CHAPMAN.

EPHRIAM BRASHER'S CELEBRATED DOUBLOON 1787.

- 140 1787 Doubloon. The sun in splendor rising from behind a range of mountains, at their base rough water, beneath which BRASHER; the whole device enclosed by a circle of beads; outside of which ★ NOVA ★ EBORACA ★ COLUMBIA ★ EXCELSIOR. Border and edge plain. R UNUM * E * PLURIBUS ★ 1787 ★. In the center within a wreath composed of twin olive leaves is an Eagle displayed, U. S. shield on his breast, 13 stars about his head, olive branch in right talon and bundle of arrows in left; E. B. in an oval punch mark on right wing. Gold. Extremely fine. Sharp, even impression. A magnificent example of this Most Celebrated and Second Earliest United States Gold Coin! But four others as this one and one with the counterstamp in center are all that are known.

This great coin which holds the Worlds Record Price \$6,200 for a single coin realized June 25, 1907 lot 256 Collection of M. A. Stickney Sold by me, was found in 1897 by laborers digging a cellar for a building on South Broad St., Philadelphia.

and with it was a 5c nickel of either 1866 or 1867 with rays (but date of which was eaten off by corrosion); on making inquiry in the neighborhood a man about eighty years of age stated that he well remembered the filling in of this section with City refuse about 1866 or 1867 and it is more than likely this coin owes its being there to some such act, as it was some six feet below the surface. On being taken at Noon by the finder to a nearby Saloon and offered for a can of beer the bartender refusing to complete the transaction as "he knew too much to buy brass buttons" the finder took a file and filed the left hand edge for the space of $\frac{1}{4}$ of an inch—which does not show from obverse or reverse. After this first offering he took it to the Mint where he was told it was gold and worth "\$300. or \$400." Mason & Co. were the next and refused it at \$20. and it drifted about the City for about two weeks when the finder offered and sold it to S. H. & H. Chapman who sold it July 15, 1897 to Mr. Jackman and it has remained in his possession ever since. As three of the six known are forever withdrawn from the market being in the U. S. Mint, The Garrett Collection at Princeton University (Bushnells), the James Ten Eyck Collection, Albany, N. Y., purchased at private sale from John G. Mills the Stickney and Zabriskie specimens are owned by gentlemen of vast wealth and who will in all probability never dispose of their collections, for public competition, *it leaves this example to be the only one that money will buy at the present time so I do hope this glorious old rarity will reach its value and grace some one of the great collections where it is a conspicuous absentee. See plate where both sides are exhibited.* Weight 414 grs. Size 19. Crosby figure 65, page 322, plate IX, No. 24.

LIBER NATUS LIBERTATEM DEFENDO, CENT 1787.

- 141 1787 Cent. LIBER NATUS LIBERTATEM DEFENDO * (Born free I defend Liberty) Indian wearing war feathers standing, facing to left, a tomahawk raised in his right hand; while his left supports a bow; quiver on his back. R NEO—EBORACUS 1787 (New York) EXCELSIOR (More lofty, etc., Motto of State) Eagle facing right, wings outstretched, standing upon a section of the Globe. Extremely fine. Rich brown color. Sharp impression, the obverse struck a trifle high causing the upper half to be

without the beaded border and the tops of *LIBERTAT* to be off. Reverse evenly centered. Of excessive rarity about four known; this being lot No. 345 C. 310, from John G. Mills' Collection sold by S. H. & H. Chapman April 27-29, 1904. With the exception of the slight off center of the obverse it is a finer example than the one in Stickney collection which I sold in 1907 for \$850., lot 239, the buyer being the late De Witt S. Smith and which example is in Mr. Virgil M. Brand's Collection. *See plate.* Crosby page 321, figure 64, and plate VIII, No. 7.

GEORGE CLINTON, CENT 1787.

- 142 1787 Cent. GEORGE * CLINTON * Bust of George Clinton r. R
110. Arms of New York—oval shield bearing Sun rising over Mountains, at either side stand Justice and Liberty; while above an Eagle faces right, with outstretched wings, stands on the Globe resting on the shield; below 1787 EXCELSIOR. Extremely fine—practically uncirculated, only tips of bust showing cabinet friction. Rich brown color. Sharp, evenly centered, and one of the finest known examples of this excessively rare coin, of which about six are known, and it is many years since one has been offered at all either privately or publicly—of the six known two are forever removed from trade—Wm. S. Appleton's and Mills'-TenEyck, both being in Institutions as gifts; so that like the Brasher Doubloon it is more than likely this is the only one money can buy. The great Stickney collection did not possess it which fact alone should speak loudly in favor of its great rarity and here is a superb specimen worthy of a place in a renowned cabinet. *See plate.* Crosby No. 5 plate VIII, and figure 62, page 321. This coin Mr. Jackman purchased at private sale from Dr. Thos. Hall. It was found in a Long Island farmhouse about 30 of Jan. 1895.

History of this Celebrated and Unique Coin-Dies Made by ~~Benjamin~~ Getz, of Lancaster, Pa. Winslow J. Howard, a mining engineer, wrote to S. S. Crosby about 1874-5 that about the year 1831 a son of Rufus King, formerly Governor of the State of New York, paid out this coin to one Bossuet, a shoemaker in Bleeker Street, New York. Bossuet kept it in his possession until 1858 when he sold it to W. J. Howard, a collector then living in New York for \$40. He sold it the same year with the rest of his collection of George N. Dana of Boston, who afterwards sold out to Mr. Finotti of Brookline, Mass., whose collection was sold to W. E. Woodward of Roxbury, Mass. At the Finotti sale Nov. 1862 lot 1721 sold for \$125. to a buyer of the name of Mr. Le Ray really Charles I. Bushnell, in whose collection it remained until sold by S. H. & H. Chapman June 20-24, 1882 lot 1253 for \$365, bought by L. G. Parmelee of Boston, sold at his sale June 1890 lot 614, \$175, to S. H. & H. Chapman who sold it to Mr. Jackman. I had correspondence with Winslow J. Howard some thirty-five years ago and he

spoke of owning this great coin and so as to be able to identify it at any time and also to make sure that it was the same unique coin he scratched his initial n in the u of UNITED and it is there today. A. B. Sage in "Recollections of a Coin Collector," *American Journal of Numismatics*, Vol. I, No. 10, Feb'y 1867 page 76 states: "W. J. Howard obtained a very fine collection and I believe sold it to some gentleman in Boston. Mr. Howard was the fortunate possessor of the Washington half dollar described in one of Norton's Literary Letters. He obtained it for a very moderate price I believe from a shoemaker named Bossuet, doing business then and now in Green Street near Bleeker St., New York."

Sep. 12, 1900 Mr. Jackman visited the store of H. E. Morey in Boston and learned then that two old South Shore, Mass. merchants, brothers, unmarried, and whose house was cared for by a maiden sister—were in the habit of saving all the fine old cents that came over their counter or through other channels but never allowing their hobby to become known. After the death of one of them, the survivor began gradually to dispose of these coins and on the 12th of Sep. 1900 sold to Mr. Morey forty-two U. S. Cents, nearly all being bright uncirculated and dating from 1812 to 1857 excepting 1817, 1827, 1832, 1849; same day Mr. Morey sold them to Mr. Jackman for \$100! and nearly all these magnificent cents from 1812 in brilliant original color came from this source. NOTE:—This coin was discovered in 1884 being brought by an old colored woman of Alexandria, Va. to Mr. B. H. Collins of Washington to whom she stated she had a bag of them! He thinking there was not any mistake about the hoard sold it to S. H. & H. Chapman for \$3! with the remark "How many more will you take?" We said the lot. The woman subsequently brought him the bag but to his astonishment they were all 1828's 13 stars! and it has always been a mystery to me that an 1811 equally fine as the 1828's should have been in with the later date, and that her pick at random should have alighted on the only 1811 in the bag! It was subsequently sold in the Warner Sale, \$67 and there bought by Mr. Jackman.
